

2019 CAMP CRITERIA AND SESSION DATES

Please read over this document before completing your camper application.

CAMP ELIGIBILITY AND APPLICATION PROCESS

While camp is a great experience, it is definitely not for everyone. Campers live in a group setting with many other children/youth that have a physical disability. The setting will be quite active and full of sounds. Campers need to be able to successfully function in such an environment. To best determine a camper's eligibility and appropriateness, Easter Seals staff will carefully review each camper's application prior to acceptance. The camp's nursing facilities are limited and, by the nature of camp, are remotely located. Camp is typically not able to meet the needs of children/youth that require skilled nursing care. Easter Seals Ontario has the right and duty to rescind an acceptance or to send a camper home early due to health, medical, or behavioural concerns.

Use this information to decide on the best session for your child:

1. Decide which camp you would like your child to attend – keep in mind that transportation is the parent's/guardian's responsibility.
2. Check (✓) off your session choice next to the corresponding session code and date on the front of the 2019 Camper Application in the box provided.

CRITERIA FOR ALL CAMPERS

Easter Seals camps provide outdoor recreational experiences for children and youth. Each camper must:

- be registered with Easter Seals Ontario (please note: the Incontinence Supply Grant is a separate registry) and be age 6 to 26 years as of July 1, 2019;
- be able to make choices, follow directions, and be aware they are participating in a recreational program;
- have the physical and mental stamina to participate in a challenging outdoor program, and
- have a desire to fully participate in the daily activities of camp.

Camp has increased risk associated with it in comparison to home or school. To ensure safety, campers must:

- have no recurring history of problems with respiration, swallowing, or choking;
- have a well-established communication system (verbal or augmentative) that allows for effective peer and staff interaction; they must have the ability to communicate a consistent yes and no (verbal or non-verbal), and
- be able to comprehend their own needs, ask for assistance when necessary, and indicate when they are in distress.

Please note, Easter Seals is thrilled to offer non-traditional camp programs. Please be aware, for safety reasons specific criteria exists for participation in some programs such as: out-trips and high ropes activities.

Camp is a group experience and therefore campers are required to:

- exhibit no inappropriate behavioural tendencies toward themselves or others;
- be able to actively participate in a group environment with a 1:2 ratio of staff to campers; please note that 1:1 care is **not** provided at camp;
- be able to enjoy group meals in the dining hall without being disruptive to others, and
- be able to sleep in a cabin with a group of campers without being disruptive to others (does **not** apply to day camp).

Easter Seals Ontario reserves the right to:

- deny any child/youth admission into the camp program who does not meet the criteria or for whom it cannot be established that their needs will be safely met;
- deny admission to any camper whose medical, physical, or behavioural condition upon arrival at camp is significantly different to that which was disclosed in the application form or was advised in writing, prior to camp.

If your child does not meet the above criteria to attend an individual camp session, please contact us to inquire about our Family Camp option as an alternative.

Every child is different, and we realize that some children (or their parents) may not be ready for a full 10-day overnight camping experience. For this reason, Easter Seals Ontario has developed a great 5-day introductory camping program especially for young or first-time campers. Both Merrywood and Woodeden Camp provide a nurturing environment organized with care to provide the support, supervision and structure young campers require. The camps have a staff/camper ratio of 1:2 with 3 registered nurses on site. There will be no more than 8 campers per cabin to ensure every camper receives the special attention they need. Discovery Camp will give your child a feel for being away from home and a taste of independence. Campers will have the opportunity to participate in nightly campfires and enjoy all of the camp activities.

Each day campers will learn new skills and gain a fundamental understanding of a wide range of sports activities, participating in their favourite activities as well as trying new sports that they may have never played before. They will also have one swim period each day and one period where they can participate in any program of their choosing. Each evening there will be a sports clinic or game. There will be a number of coaches from various sports organizations coming to teach specific skills. With the emphasis on fun, the program is designed to enhance each camper's self-image by working on their individual skills, while learning the value of team play, sportsmanship and friendly competition. This active program is perfect for energetic campers who love to get involved in an intense but non-competitive atmosphere.

This program is designed for campers who would like to experience outdoor camping in the true wilderness. Together, campers and counsellors will plan their trip, taking into consideration food, equipment, safety and the route. Emphasis is placed on outdoor living skills, teamwork, fun, leadership and challenging oneself. The campers spend the first day at camp planning, preparing, covering emergency procedures and then they head out for an incredible canoe adventure to Algonquin Park on the east side (approx. 3 hrs. north of Merrywood). Participants interested in this program must be able to demonstrate a reasonable level of independence with their daily living and be comfortable sleeping in a tent and canoeing. The out-trip will consist of only 5 campers and be lead by 2 Trippers who have extensive experience, as well as wilderness first aid and NLS swimming qualifications. A counsellor will also accompany the trip to assist with any of the personal care needs the campers may have. In any wilderness travel program there are always risk management and safety issues to be addressed. Easter Seals Ontario is committed to providing a safe and fun experience for participants through extensive pre-trip research and planning, top of the line equipment and extensive emergency response plans and procedures. Through the use of a satellite technology (phone and a SPOT Satellite GPS Messenger) the trippers can be in contact with the camp and the nursing staff at any time.

Camp is about learning by doing. Campers in this program will learn these skills in a safe environment through a variety of fun and challenging activities, workshops and discussions. Each session has 8 LIT participants, who live in a cabin with other LITs and are supervised by the LIT programmer. They gain valuable leadership skills through team building activities, discussions, journals, mentoring and evaluations. The program is both challenging and fun. There are also plenty of opportunities for everyone to practice their newly developed leadership skills within the camp community. This program is for young adults who are highly motivated, ready to work and play hard, and who have demonstrated an interest in enhancing their leadership skills. LITs must be able to direct their own care.
